November 2022. Minimalist, delicate and handmade – attributes that connect ZWIESEL GLAS and Saskia Diez. The celebrated jeweler from Munich relies on a clear, strong and feminine language of forms in her designs, which she has for the first time translated into glass. The result is the exclusive "Fleur" vase trio. Like dandelions, the spherical vases in three different sizes float atop their slender stems. The exclusive design collaboration between ZWIESEL GLAS and Saskia Diez reveals how much elegance is contained in pure lightness. Fleur is amazingly versatile and, thanks to colourless crystal, is the highlight of any room decoration at any time of year. The harmonious ensemble can be combined

About ZWIESEL GLAS

For 150 years, ZWIESEL GLAS has stood for passion and uncompromising quality in glass. At the main site in Zwiesel and at the glass factory in Hungary, around 700 employees produce crystal glasses with an unmistakable sound.

In order to equip the tables of this world in the future not only with the perfect glasses, but also with matching cutlery and porcelain, ZWIESEL GLAS joined forces with Fortessa in October. The common goal: to become the "world market leader for the laid table". Together, the companies generated sales of more than 200 million euros with over 900 employees. In addition to the connection between the two companies, the anniversary year 2022 was marked by another success: ZWIESEL GLAS was named "World Market Leader Champion 2022" in the "Crystal Glass for Upscale Hotels and Restaurants" segment for the fifth time in a row.

With such a title, also comes a responsibility. ZWIESEL GLAS continuously checks its raw materials for origin and quality and relies on resource-saving production processes. The Tritan® glass set enables brilliant and long-lasting products – and thus ensures particularly high sustainability.
